VINYL WINDOWS FOR EVERY ROOM

Low-maintenance vinyl windows made to fit your openings. Pick the style for each room, then the frame, colour and glass.

White windows, inside view

Kitchen window

Bay window, brown exterior

WINDOW STYLES

Mix styles in the same house, or in the same frame.

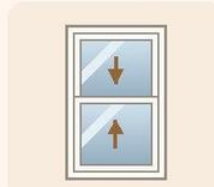

CASEMENT
Cranks open from the side

AWNING
Hinged at the top, opens outward

SLIDING
One sash slides across

HUNG
Sash slides up and down

FIXED
Picture window, doesn't open

COMBINATION
Opening and fixed sashes together

FRAME PROFILES

3 1/4" Contemporary frame
Clean, square lines for a modern look.

3 1/4" Contoured frame
A softer, classic shape for traditional homes.

4 1/2" Wide frame
A deeper frame with slimmer sightlines, so you see more glass.

COLOURS

White
Inside and out, the standard finish.

Colour outside
A coloured exterior layer (capstock), white inside.

Painted
Painted to suit your home. Ask to see the colour chart.

ALUMINUM WINDOWS & WINDOW WALLS

Slim aluminum frames put more glass in the wall: big fixed panes, floor-to-ceiling window walls and wide openings for modern homes, additions and commercial buildings.

Floor-to-ceiling window wall in a dining room

Two-storey arched glass wall

Tall black arched windows

Black frames, modern exterior

SLIM-PROFILE WINDOWS

Narrow aluminum frames, fixed or opening, for clean modern lines and more daylight.

WINDOW WALLS

Floor-to-ceiling fixed glass in aluminum framing, with opening sections where you want fresh air.

CURTAIN WALL

Large glass spans across the face of a building, for commercial and architectural projects.

PATIO, SLIDING & FOLDING DOORS

Open the back of the house to the yard: from a classic vinyl slider to a wall of glass that folds out of the way.

Four-panel black patio door

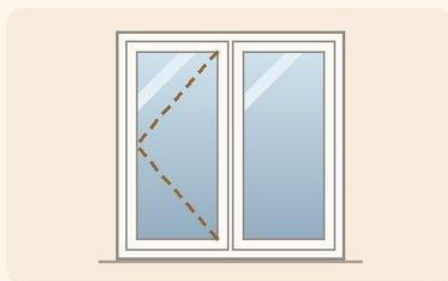

Sliding door out to the pool

VINYL SLIDING

The practical choice for decks and yards. Well insulated and low maintenance.

VINYL SWING

A garden door that swings in or out, with efficient sealing.

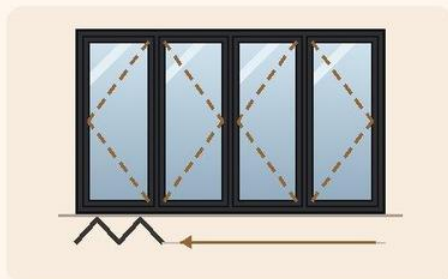

LIFT & SLIDE

Big aluminum panels that lift onto rollers and glide open. Slim sightlines.

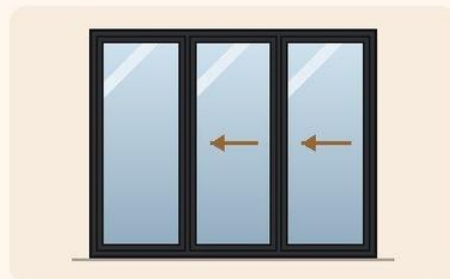

ALUMINUM SWING

Slender, thermally broken aluminum frames for renovations and new builds.

FOLDING

Aluminum panels fold and stack to one side to open up a whole wall.

MULTI-SLIDE

Three or more sliding panels for extra-wide openings.

ENTRY, PIVOT & INTERIOR DOORS

Your front door sets the tone for the whole house. We install steel, fiberglass, wood and pivot doors, with sidelites, transoms and hardware to match.

Wood-slat pivot door, Mississauga

Double doors with sidelites

Stone-look pivot door

STEEL

Strong and secure. Resists warping and cracking. Modern or classic designs.

FIBERGLASS

Wood-grain looks in oak, teak or mahogany, in classic and modern styles.

WOOD

Custom wood doors: pick the species, stain or paint, and wrought-iron details.

PIVOT

Oversized, made-to-measure doors that turn on a pivot. A modern statement.

ALSO Security doors with reinforced construction · Interior doors, including frameless flush-to-wall doors · Sidelites and transoms · Handles, locks and keyless entry

PLANNING A NEW FRONT DOOR?

Ask for our Entry Door Design Guide, with pivot and swing styles, finishes and hardware. Or design a pivot door in 3D at mypivotmaker.com and send it to us.

GARAGE DOORS

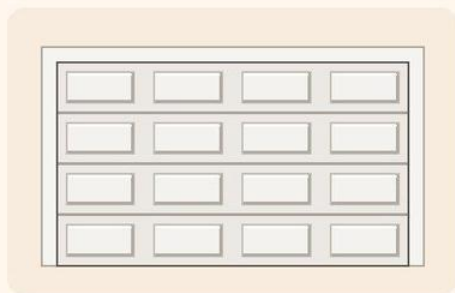

A new garage door can change the whole front of the house. Choose a style, then the panels, colour, windows and insulation.

Wood-look door with glass strips

Black garage door, entry and windows

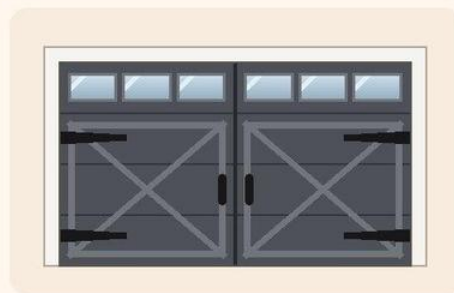

TRADITIONAL

Raised or recessed panels in steel or wood. The classic look.

CONTEMPORARY

Flush or grooved panels in steel, aluminum, glass or wood-look.

CARRIAGE HOUSE

Carriage-door looks with decorative overlays and hardware, on a modern overhead door.

Black door, glass strips

Traditional raised panels

Flush modern door

Insulated doors are available. We'll also check that your opener works with the new door.

GLASS, GRILLES & HARDWARE

What goes inside the frame makes the biggest difference to comfort and looks. Here is what you can choose.

GLASS

Low-E coatings

An invisible layer that reflects heat back into the room in winter and keeps strong summer sun out.

Argon or krypton gas

Fills the space between panes and insulates better than air.

Warm-edge spacers

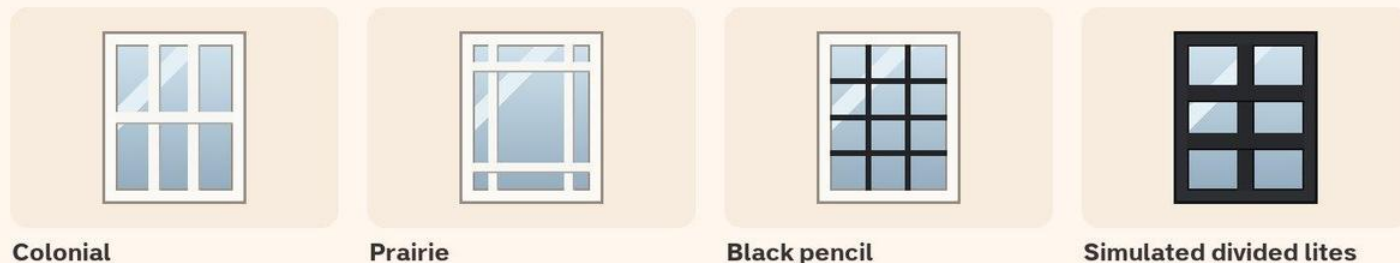

Keep the edge of the glass warmer, for less condensation.

Tempered & laminated glass

Safety glass for doors, low windows and large panes.

GRILLES

Bars between or on the glass, for a traditional or modern look.

Also Georgian bars, bevelled glass and V-groove designs. Grilles come in white, gold, pewter or black.

WINDOW HARDWARE

Casement & awning

Multi-point lever locks, smooth cranks and low-profile folding handles.

Sliding & hung

Cam locks, plus tilt latches so the sash tips in for cleaning.

Antique brass

Black

Bright brass

Bright chrome

Brushed brass

Brushed chrome

Pewter

White
